

↗ Improving Your Bottom Line At No Cost

Accounts Payable Audit and Other Ancillary Services

PROFITRECOVERY SOLUTION

www.ProfitRecoverySolution.com

Every large company loses thousands of dollars in profits through duplicate payments, duplicate billings, overpayments, fraud, taxes, and a myriad of other circumstances every year. Profit Recovery Solution is a team of expert auditors dedicated to recovering those lost profits and improving your bottom line. With over 50 years of combined, professional experience, Profit Recovery Solution provides you with comprehensive and personalized consulting services to help you rebuild your business' lost profits.

Our Services

With our proven analytical techniques, our profit recovery specialists will customize a plan of action tailored to your unique and individual needs, search out discrepancies that have resulted in your lost profits, and help your company protect against future losses. Our services include:

- Complimentary consultation
- Accounts payable analysis
- Contract compliance review
- Vendor disbursement review
- Sales tax review
- Thorough review of purchase contracts with comparison to vendor invoices
- Management reports with detailed recommendations for future practices

Our Benefits

Most corporate businesses are already waist-deep in work. Because you simply don't have time to do it all yourself, our team of expert auditors can analyze vendor disbursements, statements, and all other pertinent documents – down to every last detail. You can relax knowing that each dollar recovered means more profit for your business. Best part is, it costs nothing to your company.

- We work on a contingency fee basis so there is **no risk** to you.
- Verification is made through suppliers, so there is **no interference with your staff**.
- Recovered amounts go directly to your bottom line.
- Consultation is always complimentary.
- We evaluate **100%** of your vendor disbursements – no sampling.
- In-depth post-audit analyses and reports will be provided at the end of the audit.
- Personal and attentive client service is our specialty.

The Audit Process

Our team of expert auditors uses an in-depth, five-step process to recover your lost profits:

Step 1 - Consultation

Our team will consult with you to define your objectives and devise a custom plan dedicated to searching out discrepancies resulting in recovering lost profits.

Step 2 – Analysis

Our specialists will analyze and review all relevant documentation (both manually and electronically) to identify every possible piece of lost dollars.

Step 3 – Collection

When potential claims are discovered, our auditors will make sure that each potential lost dollars detected is 100% accurate.

Step 4 – Recovery

Our team will considerately and professionally submit claims for collection.

Step 5 – Compensation

Profit Recovery Solution will only receive compensation after you have received your lost funds. If no money is recovered, there is no charge to you.

Claims Recovered

Our auditors have worked with a wide variety of industries to claim lost profits:

Oil and Gas Company - **\$1.5 million +**

Drilling Oilfield Services - **\$750,000 +**

Oilfield Equipment Distributor - **\$200,000 +**

School Districts - **\$100,000 +**

Pumping and Drilling Services - **\$800,000 +**

Chemical Manufacturing - **\$600,000 +**

Furniture Distributor - **\$150,000 +**

If a company earns a 4% pre-tax profit, an \$80,000 net recovery by Profit Recovery Solution would be the same as a \$2,000,000 increase in revenue.

Profit Recovery Solution is your personal and professional team of expert auditors working to increase your bottom line. For more information about our services, call us today at **713-623-1826**, or email us at info@ProfitRecoverySolution.com.
